CERTIFICATION OF THE A & B NO. 3 CLAIM, COCONINO COUNTY, ARIZONA

Symbol: MD:GCR

Abstract:

A single mining claim of approximately 61.9 acres located on the Navajo Indian Reservation, Coconino County, Arizona.

It is recommended that this claim be certified for bonus payment.

Introduction:

An application for certification of the A and B No. 3 was received from Ike I. Arnn, Cameron, Arizona, on behalf of the A and B Mining Corporation on March 19, 1954.

The property was examined March 10, 1954, in company with Ronald Kelsch and Stanley Smith, employees of the A and B Mining Corporation.

Status of the Land:

This claim is located in section 21, T. 28 N., R. 9 E., Q1SR.BM, Little Colorado Mining District, Coconino County, Arizona.

The property is an airline distance of about 3/4 mile west, from Cameron, Arizona. At the time of examination there was no road leading to the property.

The property has been surveyed by the operators and a copy of a map prepared by them is included in this report.

The corners are designated by rock cairns and the southwest corner is tied to milepost 466 on U. S. Highway 39.

Ownership:

The property consists of one claim of approximately 61.9 acres.

The A and B No. 3 is included in Mining Permit No. 97 issued to Paul Huskie, a Navajo Indian, by the Navajo Tribal Council on January 18, 1954.

April 26, 1954

Paul Huskie, and his wife Margaret Huskie, assigned mining rights to this property to A and B Mining Company on February 16, 1954.

The mining permit and assignment are for a period of two years from January 18, 1954.

Mr. Ike I. Arnn, the applicant for certification, is the president of the A and B Mining Corporation.

No conflicts were noted.

A copy of Mining Permit No. 97 and the assignment to the A and B Mining Corporation is on file in the Mining Division, GJ00.

The A and B Mining Corporation owns mining rights to another claim approximately 3.5 miles from the A and B No. 3. These two properties are held by different individuals under two separate mining permits and therefore cannot be combined.

Production:

Finance Division lists no production during the critical period.

The property is eligible for bonus payment on 10,000 pounds of U₃O₈.

Recommendations:

The A and B No. 3 claim is recommended for certification.

The claim is located in section 21, T. 27 N., R. 9 E., S3S.R.2M., Coconino County, Arizona.

Production Possibilities:

The ore lies in pods and lenses near the surface in the Shinarump formation.

The ore is of the carnotite type low in vanadium and lime.

The mining availability and metallurgical availability and highway accessibility classification is as follows:

Mining availability "B"
Metallurgical availability "A"
Highway accessibility "C"

The ore body was located by the Atomic Energy Commission's airborne section. The operators prospected the area with portable Scintillation counters and located "hot spots". These "hot spots" are then excavated and the ore is mined by hand methods.

Only a small amount of drilling and blasting is necessary and the operators use Indian labor with shovels and wheelbarrows to strip the overburden and mine the ore.

The property was not being operated at the time of examination.

A 5 or 6 man crew will be employed on the property.

At the time of examination the operators were planning to produce fifteen to twenty tons daily.

There had been no exploratory drilling accomplished at the time of the examination. It is doubtful that any substantial amount of drilling will be done. The operators will do a little jackhammer drilling but the indicated depth will very probably be less than ten feet.

Re: CERTIFICATION OF A & B #3, COCONINO COUNTY, ARIZONA

Gentlemen:

Your application for certification of your mining property has been examined by our engineers.

The property as certified consists of the following lands as listed in our engineer's report, namely:

A & B #3

Monument No. 1 of A & B No. 3 is located by azimuths of: 46° to Cameron Airport Hanger, 61° 30' to SW steel pier of Cameron Bridge, 332° to Shadow Mountain and N 49° E, 3645' to Milepost 466 on U. S. Highway 89; thence N 60° E, 1500' to corner No. 2, the SE corner; thence N 30° W, 1800' to corner No. 3, the NE corner; thence S 60° W, 1500' to corner No. 4, the NW corner; thence S 30° E, 1500' to point of beginning.

The above lands lie in section 21, T. 28 N., R. 9 W., G2SR B2M, Little Colorado Mining District, Coconino County, Arizona.

The certification number you will use in making application for bonus payment is D.U.P.06-C-440. Several copies of an Application for Bonus Payment form are enclosed for listing each month's production since March 1, 1951.

As there have been no pounds of U₃O₈ produced between April 9, 1948, and February 28, 1951, inclusive, 10,000 pounds of U₃O₈ are eligible for bonus payments when contained in ores mined from this property and delivered to a qualified mill or Commission ore buying station between March 1, 1951, and February 28, 1957, inclusive.
